Printed velour

High quality products with special fine fibre cutting for soft and pleasurable moments. We invite you to bring in your own touch and promote your brand in a unique and practical way. BearDream guarantees you 100% pure cotton – a fair choice for all people and our planet Earth. Feel it, smell it, use it and you will know why cotton.

LIGHT VELOUR TOWEL (330 gsm)

100% cotton on both sides

Recommended for any kind of designs: logos, photos and complex graphics

Ideal at beach, swimming pool, sport activities

Health and environmentally friendly

Bath towels, suitable for your advertising and for long-term use.

The cloth feels comfortable on the skin, soaking up the water on both sides. Much better and more pleasant than at competing cloths made from half or more of polyester. This is because the polyester side is glossy printed and only the back has cotton portions. The result is skin irritation and no real drying effect. Give your customers a pleasurable, healthy and beautiful towel, produced by BearDream.

Velour towels are very popular and can be used for years!

The colors are deeply incorporated deeply into the cotton fiber. Environmentally friendly printing inks combined with hot steam assures permanent color fixation. BearDream as reactive printing pioneer brought best printing resolution of 360 dpi in Europe market already in 2015. A group of textile-engineers and a textile doctor in the Factory in Celje guarantee the best quality for you.

Picture yourself, your family, employees or customers, sitting on a comfortable chair at the bar or at the beach... Simply relaxing, making jokes with friends, or discussing new business ideas while leaning back on your own printed design, representing the brand that you so proudly promote. Let there be no mistake, there is no shame in showing who you are in a clear and beautiful way, through a product like this, that is without a doubt very practical. Now, envision yourself walking into a bar that has printed chairs like this, with another brand's design, would you think to yourself: "Oh, that's a fun way to do marketing, I wonder where I could make this for my own company..."? If the answer is yes, look no further then where you're at. BearDream makes it a joy, supporting brands like yours to have functional products with their own designs. And we repeat, as it is an important fact - the chair is very durable and easy to carry around, because of it's construction made out of Slovenian high class wood.
