WHY CHOOSE OUR ELECTRIC SALT AND PEPPER GRINDER

In case you cook without using spices, you are missing a lot of flavor. Spices are a key component that can make your dishes super delicious. Most people don't use them because they don't have the right tools. And those who use them, don't use the right quantity which is counter productive for their tastebuds or even their health (too much salt can cause heart problems). Now You Can Finally Get The Most Out Of Your Spices With The Most Convenient Salt & Pepper Mill. No more struggling to manually grind your spices. All you need to do with this amazing mill is to press a button. And KASIDE's electric salt and pepper mills are designed to match the highest standards and crush all your expectations!

PEPPER ON SALMON

Run your finger up and down the center of the salmon feeling for any pin bones. Remove any that you find with a needle-nosed pliers or tweezers. With a sharp knife cutting across the width of the salmon, divide it into 4 equal portions. Lightly salt the salmon and let sit a couple minutes; this will help you get crispy skin. Heat a 2-count, about 2 tablespoons, of olive oil in a large skillet over medium-high heat until the oil is almost smoking. Season the salmon with pepper, and rub about 1 1/2 tablespoons butter on the skin side of each fillet. Add the salmon to the pan, skin-side down. To get super crispy skin, cook the salmon almost to completion, about 6 minutes. Flip the salmon and cook until flesh side is nicely seared, 1 to 2 minutes. Transfer the salmon to a platter, seasonings some black pepper use KASIDE smart salt and pepper grinder, and serve with the Smashed Potatoes.

PRODUCT FEATURES

Genuine KASIDE Glass design features thick side walls for added durability and stability. KASIDE Glass is a healthier choice over plastic storage; glass does not discolor, retain smells, or leach chemicals into food. Glass jar is dishwasher safe; hand-washing is recommended for the brushed metal lid.
